He also wanted to let everyone know that you can still take the practical test if you fail the written.

It was a good fireworks season and issued \$171,000 in citations.

Reported on Community Risk Reduction (CRR), sixty-five have died in residential fires, about 10 more than last year at this time. They have developed a strategic plan - please check out the website for more information and have applied for a grant to get information out about this.

He stressed the importance of the Fire Ops 101 Classes. There is a task force that is willing to come out and put one together for your community. It is important to get your community leaders on board.
